Reference No. 089290

Mr. Paul D'Amato  
Regional Director  
New York State Department of Environmental Conservation  
Region 8-Division of Air Resources  
6274 Avon-Lima Road  
Avon, NY 14414

Dear Mr. D'Amato:

**Re: Surface Emission Monitoring and Ambient Monitoring Work Plan  
Weekly Report #7 (April 18, 2018 through April 24, 2018)  
High Acres Landfill**

On March 2, 2018, GHD submitted a Revised Surface Emission Monitoring and Ambient Monitoring Work Plan (Work Plan) to the New York State Department of Environmental Conservation (NYSDEC) for the Waste Management of New York LLC (WMNY), High Acres Landfill and Recycling Center located in Perinton, New York (Facility or Site). This submittal serves to provide NYSDEC with a discussion of work and monitoring activities that occurred during the weekly period of April 18, 2018 through April 24, 2018.

#### *Initial Equipment Installation*

On March 6, 2018, GHD commenced work activities at the Site. There were five Acrolug hydrogen sulfide (H<sub>2</sub>S) monitoring units installed at the following locations:

Station Name	Unit Serial Number	Initial Calibration Date <sup>1</sup>	Initial Operation Date
West Monitoring Station (WMS)	180200450	March 1, 2018	March 6, 2018
North Monitoring Station (NMS)	180200447	March 1, 2018	March 6, 2018
East Monitoring Station (EMS)	180200452	March 1, 2018	March 6, 2018
South Monitoring Station (SMS)	180200449	March 1, 2018	March 6, 2018
School Monitoring Station (School)	171000376	March 1, 2018	March 6, 2018

Figure 1 presents a map showing the location of each monitoring station. For the WMS, NMS, EMS and SMS, each Acrolug unit, which consists of the monitoring equipment enclosed within a weather shelter, was padlocked to a mounting bracket. Each mounting bracket was installed into the side of a tree using lag bolts. In order to assess whether tampering of the unit has occurred, a camera (Wildgame Innovations Cloak Pro Lights Out Trail Camera) was mounted on a tree approximately 20 to 25 feet away from the Acrolug unit. The camera units are motion activated and will snap a 12 megapixel picture upon detection

<sup>1</sup> According to manufacturer, a calibration of the instrument should occur every six months. The next calibration is due by September 1, 2018.

of motion (at 15 second intervals). The cameras have "night-vision" lenses which allow for pictures to be taken during night-time hours.

For the School Monitoring Station, the Acrulog unit was hung from an apparatus placed on top of the roof. The camera was placed approximately 20 feet away on an exhaust pipe penetrating through the roof.

Each of the Acrulog units was linked to a laptop via Bluetooth connection to ensure that the units were taking samples and logging readings every 10 minutes prior to departing each location. The camera units were also checked to ensure that pictures were being taken.

### *Weekly Acrulog Data Download*

On the afternoon of April 25, 2018, Mr. Michael Casullo (GHD) visited each of the five monitoring stations. An initial inspection of the monitoring stations and the surrounding area was performed. Next, each Acrulog unit was linked to a laptop via Bluetooth connection and the monitoring data was downloaded into a separate folder for each station. After downloading the monitoring data, the connection was terminated and the Acrulog unit was checked to ensure that the equipment was continuing to log samples every ten minutes.

Next, the pictures from the camera unit which are stored on an SD card, were downloaded onto a laptop and the SD card was placed back into the camera.

### *Summary of Collected Monitoring Data*

A preliminary review of the data provides the following:

- Between April 18, 2018 and midnight on April 24, 2018, a total of 5,034 measurements of H<sub>2</sub>S were taken.
- Of the total of 5,034 readings taken, 5,032 were below detection.
- Between April 18, 2018 and midnight on April 24, 2018, one reading of 3 ppb was identified at the NMS and one reading of 3 ppb was identified at the SMS.
- No detections were identified at the WMS, EMS or the School Monitoring Station.
- NYSDEC's ambient standard for H<sub>2</sub>S is 10 ppb for a 1-hour average (6 NYCRR Subpart 257-10). One-hour averages for the data collected from all five sampling periods range from 0 (below detection) to 1 ppb, which are significantly below the NYSDEC standard.

While two readings of H<sub>2</sub>S were detected (0.04 percent of all readings), they are all well below applicable thresholds. In addition, it should be noted that the detection of H<sub>2</sub>S does not confirm the landfill as the source. Other sources in the vicinity commonly produce H<sub>2</sub>S including wetlands, sanitary sewers and other potential sources. The on-site meteorological data at the Site for the week of April 18, 2018 through April 24, 2018 is provided in Attachment 1.

Ambient average concentrations of H<sub>2</sub>S typically range from 0.11 to 0.33 ppb (Agency for Toxic Substances and Disease Registry (ATSDR) Toxicological Profile for Hydrogen Sulfide and Carbonyl Sulfide).

Figure 2 shows the monitoring data compared to the NYSDEC ambient standard. The raw data for each monitoring station during the period of April 18, 2018 through April 24, 2018 is provided as Attachment 2 to this report.

### *Summary of Landfill Activities*

Operational activities occurring during the week of monitoring included the following:

- Leachate extraction and storage
- Operations and maintenance
- Transportation, filling, compaction and cover of typical volumes of waste received by rail and truck
- Typical volumes of landfill gas extraction and combustion in flare and engine plants
- Composting, grinding and chipping
- Construction activities replacing 9 acres of synthetic liner on the North and East slopes of Cells 10 and 11

Further details on the monitoring methods and evaluation of results will be provided in our final report.

We appreciate your assistance in this process. We plan to issue weekly reports going forward until the completion of work activities. Please feel free to contact us if you have any questions, if you would like any clarifications, or additional information.

Sincerely,

GHD
